

SHUBHAM MANE

AWS CLOUD ENGINEER | DEVOPS ENGINEER | LINUX SYSADMIN | SRE (ENTRY-LEVEL)

Location: Chhatrapati Sambhaji Nagar, Maharashtra, India | **Phone:** +91 7218306178 | **Email:** shubhamane10@gmail.com

GitHub: github.com/shubhu-io | **LinkedIn:** linkedin.com/in/shubham-mane-dev

Immediate Joiner | Open to Relocate

PROFESSIONAL SUMMARY

B. Tech Computer Science graduate with practical experience in AWS, Linux, and Terraform. Strong foundation in infrastructure automation, networking, security, monitoring, and system administration. Familiar with DevOps practices, CI/CD pipelines, and troubleshooting distributed systems. Eager to contribute technical skills and grow in a Cloud, DevOps, or Infrastructure Engineering role.

TECHNICAL SKILLS

Cloud Platforms: AWS (EC2, VPC, IAM, S3, EBS, EFS, RDS, Route 53, CloudWatch, Auto Scaling, ALB)

DevOps: Terraform, Docker, GitHub Actions, CI/CD Fundamentals

OS & Scripting: Linux, Windows, Python, Bash, SQL

Version Control: Git, GitHub

Networking: TCP/IP, DNS, DHCP, Routing, Subnetting, Security Groups, Network ACLs

Core Concepts: Cloud Computing, High Availability, Disaster Recovery, Backup & Recovery, System Administration, MySQL, Amazon CloudWatch

PROJECTS

AWS Cloud Infrastructure Deployment & Automation | Personal Cloud Project

Tech Stack: AWS EC2, VPC, IAM, S3, EBS, EFS, RDS, ALB, Auto Scaling, CloudWatch, Terraform, Linux, GitHub

- Designed and deployed AWS infrastructure across 8+ AWS services using Terraform, reducing manual provisioning effort by 90%.
- Implemented a scalable and fault-tolerant cloud architecture by integrating Application Load Balancer (ALB) with Auto Scaling Groups, ensuring high availability and automatic workload distribution across EC2 instances.
- Automated infrastructure provisioning and configuration management using Terraform, enabling consistent environment deployment, faster resource creation, and reduced manual operational effort.
- Applied security best practices and Infrastructure as Code principles to version-control changes and reduce configuration drift across environments.

INTERNSHIP EXPERIENCE

AI/ML Intern | NDI Techsys | Jan 2025

- Maintained technical documentation and tracked project tasks across the SDLC, supporting on-time delivery of AI/ML initiatives within a cross-functional team.
- Contributed to data handling and model evaluation workflows, supporting experimentation and reproducibility of results.
- Coordinated with engineering and product stakeholders to clarify requirements, applying structured problem-solving and communication skills.

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Certified Foundations Associate
- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate
- Oracle Data Platform 2025 Certified Foundations Associate
- Google IT Automation with Python Professional Certificate
- Learning GitHub - LinkedIn Learning

KEY ACHIEVEMENTS

- Designed, deployed, and documented a complete AWS cloud infrastructure project spanning networking, compute, storage, and automated backup and recovery.
- Automated infrastructure provisioning end-to-end using Terraform, applying Infrastructure as Code best practices to reduce manual setup and configuration drift.
- Earned multiple cloud and automation certifications, including Oracle Cloud Infrastructure and Google IT Automation with Python, while completing a B. Tech in Computer Science.
- Gained practical SDLC and cross-team collaboration experience through an AI/ML internship at NDI Techsys.

EDUCATION

Bachelor of Technology (B. Tech) – Computer Science & Engineering

P.E.S. College of Engineering, Aurangabad | Dr. Babasaheb Ambedkar Technological University (DBATU)

2020 – 2024 | CGPA: 7.65/10
